Gillette

Safety Razor

Have You Seen the New Gillette
Specially Designed for the Fighting Man?

THESE models were designed by members of the Gillette Organization who have seen service with the Colors and know what the soldier is up against.

Hundreds of officers and men are buying them—the U. S. Service Set in metal case, and the new Khaki-covered sets for Uncle Sam's soldiers and officers.

The Gillette is the one razor for the man who is doing things—the one razor with world-wide use and reputation.

When a man wants new Blades he can get them at any Post Exchange or Y. M. C. A. Hut—here in America or Overseas.

Our Paris Office carries stocks—is constantly supplying the American Expeditionary Forces. Gillette Safety Razors and Blades on sale everywhere in France, England, Italy and the Eastern battle fronts.

**The Army of the United States
Is Shaved Clean**

No matter how a man shaved before he went into the Service, he is pretty sure to come out of the war a Gillette user.

The first thing he'll note among his camp mates is that more of them are shaving with the Gillette than with all other razors put together.

He'll see Gillette users in his squad lather up, shave clean, splash the soap off, tuck the razor away, and be standing at attention in the inspection line—all in five minutes.

When he gets Overseas, everything is the Gillette, from the left flank of the British line in Belgium clear around through France and Italy and on the battle fronts of the East.

Soon or late, every man who is doing things comes to the Gillette. They belong together. Ten million up and doing men all over the world had discovered the Gillette before the war broke out. The war simply made the Gillette prove

itself under extreme conditions—as no other razor has or can.

It has thrown the spotlight on the Gillette Blades—on the Gillette principle of No Stopping—No Honing—on the Gillette idea of a simple, compact shaving outfit, no strops or hones to clutter up the kit—on the Gillette contention that a man's daily shave should be an incident and not a ceremony.
